Quality Improvement and Annual Health Assessments

Take advantage of these annual visits to discuss quality care measures such as [colorectal cancer screening](#) and [breast cancer screening](#). We track Healthcare Effectiveness Data and Information Set (HEDIS®) measures to monitor our members' care.

Consider discussing other preventive care, such as:

- Monitoring physical activity
- Improving bladder control
- Reducing the risk of falling
- Improving or maintaining physical health
- Improving or maintaining mental health
- Physical functioning activities of daily living

Documentation Tips

- Include patient demographics, such as name, date of birth and date of service in all progress notes.
- Document legibly, clearly and concisely.
- Ensure a credentialed provider signs and dates all documents.
- Document how each diagnosis was monitored, evaluated, assessed and/or treated on the date of service.
- Note complications with an appropriate treatment plan.
- Take advantage of annual visits to capture conditions impacting member care.
